* System reagents matching,
if not exceeding original manufacturer performance!

* More tests – higher efficiency!

* High quality – Excellent performance characteristics!

* Direct placement packs with barcode recognition!

* Seamless cooperation with system software!

* Select pack sizes – minimum waste!

* Long on-board stability, long calibration intervals!

* Peace-of-mind for users!

Chemistry reagents by Medicon

Diagnostic reagents

System specific packages for
-Beckman Coulter AU series
-Siemens ADVIA series
Bulk, OEM, Contract manufacturing

Analytical systems

for Clinical Chemistry

Remanufacture & Refurbishment

Chemistry Analyzers
Immunochemistry analyzers
Hematology analyzers
Automation systems
